

GOLDEN YOLK LAYER

PHASE 1

PRODUCT DESCRIPTION

Denver Golden Yolk Layer Phase 1 pellets are to be fed to laying hens from point of lay through to after peak lay. This is scientifically formulated to provide a complete and balanced feed to provide essential nutrients to the laying hen during this critical period of the production cycle. In addition, this feed contains essential oils including oregano, cinnamon and capsicum that aids in digestive health and wellbeing of the birds.

FEEDING GUIDELINES

Feed Golden Yolk Layer Phase 1 pellets ad-lib from 16 weeks or at point of lay, through to 55 weeks.

Allow 130-140 grams per hen per day.

Keep feed fresh and ensure feeding containers are kept clean.

Ensure that birds have access to fresh clean water at all times

STORAGE

Store in a cool dry place and out of reach of vermin or any other animals.

CAUTION

Do not feed to species other than those stipulated on the label.

NOTICE: Do NOT feed to sheep, cattle, deer, goats, buffaloes, or other ruminant animals. This product contains or may contain ruminant protein.

Poultry
